

eScholar

Advantage

Classroom and Enterprise Analytics

eScholar Advantage is a classroom and enterprise analytics solution that enables districts to bring data together into a single integrated platform. It is an end-to-end solution, from data integration to visualizations to MTSS and collaboration.

Wherever your district is in its data journey, eScholar Advantage will support you.

EDIS Classroom Module

Data Visualization

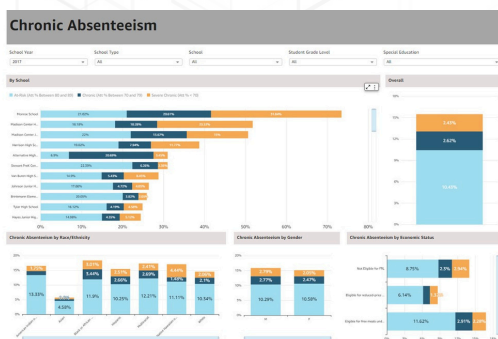

Offers an intuitive way to visualize data via interactive widgets, report libraries, and cutting-edge report builders.

Early Warnings

Tracks key-performance indicators, identifies trends, and generates alerts so no student falls behind.

#	First	Last	District	School	Grade
